

St. Rose of Lima's College

School Report

2008/09

School Mission and Vision

VISION

In the spirit of a loving family, devoted to serving one another, and in order to fulfill our school motto “Through Charity to Truth”, we strive to provide an environment that will allow quality education to enhance the spiritual, intellectual, emotional and physical growth of our students by proclaiming the Gospel and teaching moral values.

MISSION

To fulfill this vision, we work to:

1. meet the needs of each student by guiding her intellectual, moral and spiritual formation
2. emphasise the professional qualifications of our teachers and encourage them in life-long learning
3. foster co-operation among our three schools so that they will learn and benefit from one another
4. establish close relationship with parents and elicit their co-operation

Our School

St. Rose of Lima’s College was founded on 23rd February, 1948 by the Franciscan Missionaries of Mary (F.M.M.) to cater to the needs of Hong Kong society. It is a government subsidised Catholic school for girls which emphasises a very strong moral upbringing. Our school motto is “Through Charity to Truth”.

To meet the challenge of quality education and the need for more space for development, our school moved to a new building at 29 Ngan Shing Street, Shatin in September, 1999. This change ensures that our students will enjoy a better, more spacious and well-equipped learning environment.

From the time it was founded in 1948, St. Rose of Lima’s College has had the characteristics of an extended family with a close relationship among teachers and students. We have always managed to retain the atmosphere of gentility and friendliness while remaining alert and receptive to constructive changes.

As a unique EMI girls’ school in Shatin, all subjects (except Chinese Language, Putonghua, Chinese History, Religious Education and Moral & Civic Education) are taught in English.

School Management

There are 8 members in the School Management Committee (SMC) which includes 6 members from the Sponsoring Body, the Principal and 1 teacher.

School Report (2008/09)

Our Students

Class Organisation

Major Concerns (Reflection)

OBJECTIVES FOR THE YEAR 2008 – 2009

School Theme : Nurturing the Garden of Charity, Tending the Roses of Truth

Areas of major concern for the following years (2006 – 2009):

- *Improve our Learning and Teaching Strategies to Enhance Learning*
- *Strengthen our Self-discipline and Sense of Responsibility*
- *Prepare for the New Senior Secondary Curriculum*

Our students were very good in general but they were passive and shy. They did not take initiative to greet other people. The theme for the next academic year would be Good Manners. The focus would be on students' manners and maintaining the good culture of our school. The majority of our students were well-behaved. Most of the discipline cases arose owing to family problems or low motivation of students. The total number of discipline cases was still low. There would be more focus on students' misuse of the Internet.

The Cross-curricular Projects were important considering the fact that students in Senior Forms had to undertake the Independent Enquiry Studies.

A Big Sister Reading Scheme to promote reading among students was undertaken and 90 reading ambassadors from Forms 3, 4 and 6 worked with our primary school students.

The students in the Junior Forms were very enthusiastic about updating their reading records on the list put up behind the door in the classrooms.

The inspectors who had done the Focus Inspection in the Science Department had commented that our annual plans should be related to the major areas of concern of the school. New ideas and initiatives rather than the routine work undertaken by the departments should be included in the annual plans.

One of our major concerns in the coming years would be maintaining and enhancing the English learning environment in school. There should be more focus on the use of English for all communication purposes and the use of correct English was important. There would be more inter-departmental collaboration; for example among the English, Liberal Studies and Social Sciences departments on social issues, etc. Annual plans may also be drawn up in collaboration among various departments, e.g. Moral Education, Religious Education and the Student Support Team and so on.

Our focus on promoting a healthy mind among our students was very timely as there has been an increase in drug abuse among teenagers in Hong Kong. There were also cases of cyber-bullying and improper use of the Internet. It was extremely important that our students were taught about the need for good manners and keeping up the reputation of the school. Our Student Support Team would also work in this direction.

The Capacity Enhancement Grant would enable us to have the 4 Teaching Assistants in the coming year.

Future Planning

Our major areas of concern in the coming years should cover the spiritual, moral, mental, academic and physical growth of our students. We aimed for whole-person development of our students.

Enhancing our English Learning Environment would be a major concern since our students were increasingly unwilling to speak English and some students did not know how to express their ideas using the right expression and vocabulary relating to the different subjects other than English Language. Teachers should communicate with students in English and teach them to think in English. There was a need to improve their fluency and present answers in good English.
